INSPECTION OF CATTLE: The entire sale offering can be seen at the ranch prior to the sale or at the sale facility Friday afternoon, December 7.

HEALTH: Interstate health papers furnished on all cattle selling.

EPDs & \$VALUES: The American Angus Association is now calculating EPDs on a weekly basis using all available carcass harvest data, ultrasound data and the Igenity Angus specific genomic profile data. It is possible new data has been submitted between the date the catalog was finalized and sale day, which will affect the individual EPDs and \$Values indexes of animals selling. If your purchasing decision relies highly on the most current data available, please look up animals of interest on the American Angus Association web page prior to viewing the sale offering.

TERMS & CONDITIONS: All cattle sell according to the standard terms and conditions of the American Angus Association.

DELIVERY: Lathrop Livestock Trucking will be available the day of the sale. Phone (647) 910-4673. Buyers will be responsible for making their own trucking arrangements. However, we will be glad to assist you in meeting your transportation needs.

INSURANCE: Will be available through Conover Auction Service, an American Livestock agent. Please inquire at the clerk's desk.

LIABILITY: All persons attending this sale do so at their own risk, legal or otherwise for their safety or the behavior of the animals. The Owners, Auction Service and Sale Staff assume no liability for property loss or any accidents that may occur.

ANNOUNCEMENTS: From the block will take precedence over the catalog. Buyers unable to attend may send their bids to the Auction Service, Field Representatives or Auctioneer.

LUNCH: A complimentary meal will be served sale day.

2XL Cattle Co is proud to have enrolled in the Top Dollar Angus Seedstock Partnership Program. Animals in this sale offering that meet the required genetic specifications of top 25% for growth and carcass traits have been identified with the Top Dollar logo. The purchase of Top Dollar Angus seedstock will offer producers a marketing advantage and potential premium prices through the network of buyers and feedlots. More information is outlined on the inside back cover of this catalog.

Cattlemen, Much thought and deliberation has gone in to the decision to offer our herd up for complete dispersal, particularly with the herd in its prime. 2018 has been a year of change for us, and health concerns and new opportunities have led us to make the difficult decision to disperse the herd that we have painstakingly built over the last 7 years. Almost the entire offering is less than 6 years of age and represents some of the most progressive lines of breeding in the Angus business today.

Since we bought our first cows in 2011, our goal was to focus on traits that are of economic importance to the commercial cattleman. With that in mind, we have strove to create cattle with balanced EPD profiles rather than single trait selection. The backbone of our breeding program has always been to raise cows that calve without assistance and wean a large calf without the need for creep feed. Those calves must then be able to stay in the herd as productive females or finish well on forage or grain.

Many have said that mainstream Angus genetics couldn't do well on forage alone, and that cattle that do well on forage can't do well in the feedlot. Look through these pages and you will find some of the most up and coming genetics in the Angus breed, and we couldn't have been happier with the genetics we have raised and their ability to finish on grass (24 of our last 25 grassfed calves finished choice or prime on forage alone). These same genetics have made excellent mothers as well as bulls that have excelled on test for growth and efficiency as well, so we have no doubts that whatever your herd goals, these genetics will work under a wide range of management conditions.

Over the past several years we have very selectively retained breeding animals in the herd, and animals with poor udders, poor feet and legs, and a poor attitude have long ago been sold. Because we rotationally graze, we have selected heavily both based on genetics and attitude for docility. If you spend some time with our herd you will quickly realize that these cows are some of the most exceptionally docile cattle you will ever encounter. Each AI mating has been hand-selected every year by assessing each cows' weaknesses, and selecting bulls to improve those faults. In a market where many breeders are chasing a single trait, we have bred for a balanced set of EPDs that include growth (WW, YW, CW), maternal (Milk, Doc), fertility (HP, Scrotal) and carcass traits (Marb, REA) while maintaining a moderate birthweight. As you look through our catalog, we hope you can appreciate the deep offering of uniquely balanced set of cattle that we have worked hard over the last several years to produce.

While we are sad to say goodbye to these wonderful ladies and their offspring, we are hopeful that they will go on to improve the herds that they join, wherever that might be.

Sincerely,

Glenn and Michelle Kreuder

Drs. Adam and Amanda (Kreuder) Krull, DVM

Herd Health

** As veterinarians, we strongly believe a well-thought out herd health program is vital to the success of our herd and our customers herds. Here are the details of the program we have used for the past seven years at 2XL Cattle Company:

All Cows and Breeding Age Heifers:

- Yearly pre-breeding vaccination with Bovishield Gold 5L5FP (5-way respiratory plus Lepto) and Covexin 8 (Blackleg plus Tetanus)
- Yearly pre-calving Guardian (scours vaccine) 1-2 months pre-calving
- Yearly pre-calving testing for John's disease using both fecal PCR and serum ELISA
- Pregnancy exams via ultrasound with fetal sexing at 60 days, 120 days and 7 months

Heifer Calves:

- Inforce 3 (respiratory intranasal) at 30-60 days of age
- Pre-weaning: Bovishield Gold 5 (5-way respiratory) and Covexin 8
- Post-weaning: Brucellosis (Bang's) vaccination and Covexin 8

Herd Bulls:

- Yearly vaccination with Bovishield Gold 5 and Covexin 8
- Yearly testing prior to turnout for John's disease using both fecal PCR and serum ELISA
- Yearly Breeding Soundness Exam

Yearling Bulls:

- Inforce 3 at 30-60 days of age
- Pre-weaning: Bovishield Gold 5 One Shot (5-way respiratory plus Mannheimia) and Vision 7 + somnus (Blackleg plus Histophilus)
- Post-weaning: Booster of both Bovishield Gold and Vision 7 + somnus
- Yearling booster of Bovishield Gold V5L5 (respiratory plus Vibrio) and Vision 7
- Breeding Soundness Exam prior to turn-out or sale

Additional Details:

- All animals >12 months of age have a rumen magnet
- All original purchased animals and subsequent calves were tested for BVD-PI status and herd has maintained a negative status for PI calves
- All animals <12 months of age are given oral dewormer coming off grass in the fall
- All animals given topical dewormer yearly

Dear Angus Friends,

This is one of those opportunities. A time when inaction is unallowable. The Kreuder and Krull families are dispersing a very young herd that is very close to the summit of Angus stardom. In just a few short years they have taken a few skillfully selected, herd building females and propagated them into a donor battery and genetic propagation program that has justifiably become known as the "Birthplace of Performance Champions and EPD outliers."

In their limited outings to the Midland Bull Test, Iowa Beef Expo, Hawkeye Country Sale and others, this herd has been warmly received because of the robust physical makeup, growth rate, EPD profile and performance backing. In 2016 they celebrated the "World Champion Pen of Three Bulls" for ADG at the Midland Bull Test from three prominent donors in the program. Flush sisters and maternal sisters that are, in some cases, now donors as well will be offered in this historic Angus event. First, second and third-generation descendants of the Clova Pride, Erica, Stella, Opal and Lilly families continue to build higher and higher EPD and \$values to assert themselves on statistical sorts.

But that is not even the whole story. This cow herd has been developed on a very strict forage program with intensively managed pastures, carefully supervised health protocols, and skillful reproductive procedures that are prescribed by Dr Adam and Dr Amanda Krull and carefully carried out by Glenn Kreuder and his staff. You will not find an unruly animal in this herd. Glenn will not tolerate it. This herd is consistently scrutinized and culled for docility. The cows and bulls are gentle natured and compliant to human handling.

Please plan to join Conover Auction Service, the Krull and Kreuder families at the luxurious Russell Livestock Auction facility in Russell IA on December 8th. As always, your pre-sale inquiries are welcomed.

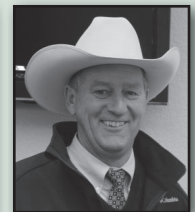

*Respectfully
Al and Jeanne Conover

- This "Ten X" donor dam was selected as the high-selling heifer of the 2014 Blackstone Cattle Co sale. Her dam, RRR Pride 0198, is the Blackstone donor that also produced the \$21,000 top-seller of the 2017 Blackstone Sale, Blackstone Pride 5275, selected by Aaron Eggerichs, WI; Clova Pride 4071, the \$5500 selection of Spruce Mountain Ranch in 2015; and the \$5500 Clova Pride 4059 chosen by Jack Lasing. These sisters all descend from \$150,000 valued Stevenson Clova Pride 6253, the long-time featured donor in the 44 Farms and Stevenson programs.
- Her 2015 son in this sale, 2XL Generation X 5226 (Lot 1B) was selected as part of the "World Champion Pen of Three" at the 2016 Midland Bull Test where he finished with a 131 ADG ratio, a 119 IMF ratio and a 111 Midland feed efficiency ratio against some of the top bulls in the country. Now featured on the ORigen roster, "Gen X" boasts progeny-proven EPDs in the top 4% or better for WW, YW, SC, \$F and \$B as well as the top 5% for Doc, and top 10% for RE, and \$W. Among the many sons of VAR Generation 2100 in the breed, "Gen X" ranks #5 for WW, #7 for YW and #9 for #B.
- Her 2017 son, 2XL Fortress 7126 is the #1 non-parent son of KCF Bennett Fortress in the breed for WW, #2 for YW and #5 for \$B value. His semen sells as Lot 160. He was selected by Quent Lewis, Helena MO at \$10,000. Other sons were chosen by Jimmy Bell, Salem MO and Rosebud Ranch, Postville IA.
- Her daughter in the sale (Lot 1D) is the breed's #3 non-parent female for WW and YW. Baldrige Waylon W34 non-parent, while another (Lot 2) is the #2 KCF Bennett Southside daughter for WW, YW, \$B and #3 for \$W among current dams in the breed. Other daughters sell as Lots 1C, 3 and 17.
- "3003" is one of the top growth producing females in the industry with offspring as EPD outliers from multiple bulls. She ranks in the elite top 1% of current dams for WW, YW, CW, \$F and \$B. She posts 6 genomic measures in single digits as well.
- Total progeny sales on four bulls and two embryo lots total \$35,000 to date. The first female offspring offered for sale will occur in this sale. Her 2018 daughter by Southside (Lot 1A) at side may be the most elite.

Now featured on the ORigen roster, "Gen X" boasts progeny-proven EPDs in the top 4% or better for WW, YW, SC, \$F and \$B as well as the top 5% for Doc, and top 10% for RE, and \$W. Among the many sons of VAR Generation 2100 in the breed, "Gen X" ranks #5 for WW, #7 for YW and #9 for \$B.
- Not only has "Gen X" proven himself in real life, but he is a genomic standout as well. His 50K profile puts him in rare company with his combination of growth, carcass and maternal genetics. He has 6 traits in the top 10%, including top 1% for WW and top 10% for YW, SC, CW, RE and HP.
- Generation X is a very docile, moderate framed bull with solid feet and legs and a deep, well-muscled body.
- His "Ten X" donor dam was selected as the high-selling heifer of the 2014 Blackstone Cattle Co sale. Her dam, RRR Pride 0198, is the Blackstone donor that also produced the \$21,000 top-seller of the 2017 Blackstone Sale, Blackstone Pride 5275, selected by Aaron Eggerichs, WI; Clova Pride 4071, the \$5500 selection of Spruce Mountain Ranch in 2015; and the \$5500 Clova Pride 4059 chosen by Jack Lasing. These sisters all descend from \$150,000 valued Stevenson Clova Pride 6253, the long-time featured donor in the 44 Farms and Stevenson programs.
- His maternal sisters, Lots 2 and 3, have both entered the ET program at 2XL and Lot 2's flush of "Bronc" bull calves will headline the spring bull division. Other maternal sisters sell as Lots 1C, 1D and 17.
- His daughter, 2XL LGL Laurel 7249 was the high-selling heifer of the 2018 Hawkeye Country Sale selected by Crazy P Ranch, Buffalo WY at \$3700.
- This sale offering will feature 44 fall yearling and spring sons and daughters, as well as many fall babies. They possess uniform structural integrity, eye appeal, stoutness, muscularity and docility.

- This daughter of the now-deceased Basin Excitement was the 2014 open heifer selection from the Hoover Angus herd and stems from the famed Erica of Ellston R155 cow that produced NR 12 @112 with a 363 day calving Interval.
- M231 has produced some of the top calves in the 2XL program every year including 2XL Exploration 5230, the former #1 YW EPD sire in the breed (Exploration remains #4 in the breed); 2XL Ragnar 5908, the #17 \$W sire in the breed; and 2XL TenX 5208, member of the "World Champion Pen of Three Bulls" for ADG at the 2016 Midland Bull Test selected by Diamond Peak Cattle Co, Craig CO.
- Her son, "Exploration" posted an adjusted 205-day wt of 797 lbs without creep feed. That was 130 lbs greater than the average of the next three contemporaries that went on to win the Midland Bull Test "World Champion Pen of Three Bulls". Exploration is a genomic standout as well as an EPD outlier. His 50K ranked him in the top 1% for WW, YW, and CW, top 2% for CEM, RE, and Fat, top 10% for SC and Doc. Unfortunately, Exploration was lost to an injury while on test and only a very limited semen inventory remains.
- Additional sons have been the herd sire selections of Sandman Cattle Co, Dekalb IL at \$4250, Roy Reno, Humeston IA at \$6500 and Raftopoulous Ranches, Craig Co at \$4750.
- Her sire, Basin Excitement, is featured at Genex and in the Hoover Angus bull battery. He posts an incredible BW to YW EPD spread of +0 to +121. Excitement sired the \$25,000 Hoover Elation M123 featured in the 2014 Hoover Sale now a headliner at Select Sires. An Excitement daughter is currently the #1 indexing cow in the entire Hoover Angus herd. Excitement earned Pathfinder® status again this year with 17% of his eligible daughters achieving Pathfinder® recognition.
- Two 2015 daughters will be offered as Lots 5 and 6 with fall 2018 daughters selling as Lots 100A, 101A, 102A, 103A, and of course, the herd sire prospect at side, Lot 4A sired by Generation X 5226.
- The Erica cow family has helped put 2XL Angus in the forefront of Angus innovation and will continue to deliver unparalleled growth rate and accompanying EPD values. Erica is an extremely deep bodied donor with an ideal udder and exceptional docility.

- Another flush sister to the impeccable "Exploration" and "Ragnar" bulls that have popped up on about every sire search where growth rate is a priority.
- This statistical standout ranks in the top 15% or better for 12 EPD or \$value traits.
- Her dam, Erica of Ellston M231 was 2XL's 2014 open heifer selection from the Hoover Angus herd and stems from the famed Erica of Ellston R155 cow that produced NR 12 @112 with a 363 day calving interval. Sells as Lot 4.
- Maternal brothers have been the herd sire selections of Sandman Cattle Co, Dekalb IL at \$4250. Ray Reno, Humeston IA at \$6500 and Raftopoulous Ranches, Craig Co at \$4750.
- Her sire, VAR Discovery 2240 is an Accelerated Genetics feature, the \$110,000 top-selling bull of the 2013 Vintage Sale and one of the highest \$B bulls of the 2012 calf crop.
- Maternal sister sells as Lot 5.

- Dam's Production: BR 3@91, NR 3@104, YR 2@96, IMF 3@106, REA 3@103, Rib Fat 3@81, Rump Fat 3@91. Calving Interval 4@344 days. She sells as Lot 38.
- We're going to refer to this heifer as an "Erica Plus" as she is one of the very first daughters of 2XL Exploration 5230 (son of Erica of Ellston M231) and certain to be a sale highlight based on her tremendous individual performance (#2 heifer in her contemporary group for WW) and exquisite conformation, thickness, capacity and breed character.
- Her sire, 2XL Exploration 5230 became the #1 non-parent YW EPD bull in the breed after the EPD adjustment in the summer of 2017. Today he is a progeny proven sire ranking #4 in the breed for the trait and posting current EPD and \$values of WW +102, YW +183, CW +84, \$W +94.79, \$F +170.34 and \$B +182.79 - all in the top 1%. In addition, he ranks in the top 10% for the economic traits of RADG, SC, HP, RE and Fat. Unfortunately, Exploration was lost to an injury while on test and only a very limited semen inventory remains.
- Her maternal brother, 2XL Discovery 5342, was a Midland bull test graduate that recorded an ADG ratio of 116. He was selected by Kevin Fettig, Bismarck ND.

2XL Opal Cow Family

#1 Daughter of Basin Bonus 4345 for WW EPD

- Will be AI bred on 11-24-18 to Mill Bar Hickok 7242.
- Individual Performance: BW 96 lbs, 205 Wt. 685 lbs, WWR 104, 365 Wt. 899 lbs, YWR 102.
- Adjusted Yearling Ultrasound Scan Data: %IMF 4.05, REA 10.3, Ratio 106, Rib Fat .20, Ratio 91, Rump Fat .26.
- Dam's Production: BR 1@87, YR 1@97. She sells as Lot 11.

- 2XL Exploration 5230 became the #1 non-parent YW EPD bull in the breed after the EPD adjustment in the summer of 2017. Today he is a progeny proven sire ranking #4 in the breed for the trait and posting WW, YW, CW, SW, \$F, and \$B values in the top 1%. In addition, he ranks in the top 10% for the economic traits of RADG, SC, HP, RE and Fat. He has a progeny WWR of 5@107. Unfortunately, Exploration was lost to an injury while on test and only a very limited semen inventory remains.
- Maternal brothers to the pregnancies by "Ten X" were featured in the 2015 Midland Bull Test, while a 2017 ET son of "4133" by Plattermere Weigh Up K360 recorded a BWR 95, WWR 101, YWR 104, IMF ratio 115 and RE ratio 104 and captured the discriminating eye of Landi McFarland. This son now serves in the Hoover Angus herd, Ellston IA.

- The donor dam, 2XL Stella 5207, is a third-generation ET daughter of "Discovery" and a flush sister to a member of the "World Champion Pen of Three Bulls". She and three full sisters, as well as two maternal sisters are offered along with her "Upshot" donor dam descending from the \$150,000 GAR Retail Product 1712.
- "5207" was pulled into the donor pen after a stellar performance as a first calf heifer of NR 117, YR 102, IMF ratio 108 and RE ratio 103 on her first heifer calf.
- The sire, DL Dually gained national attention as the \$52,500 top-selling bull for the 2017 Lewis Bros Angus Sale. He is now an ABS featured, outcross performance sire ranking in the top 1% for WW, YW, \$W and \$F. Dually is now deceased and semen is very limited. These are three of the first 34 calves reporting.
- Both heifers rank in the top 1% for WW, YW \$W and \$F.

- The donor dam, 2XL Opal 5933 (Lot 11) earned her entrance into the 2XL breeding program and donor team with individual performance of BWR 100, WWR 124, YWR 115, RE ratio 104, Rib Fat ratio 94 and Backfat ratio 62. Her 723 lb 205-day wt without creep remains the record at 2XL. She ranks in the elite top 1% for WW, YW, Doc, CW, RE, \$F and \$B and top 3% or better for RADG and \$W. Moreover, she is the #11 \$B value progeny-proven daughter of Baldrige Waylon W34 in the entire breed.
- No proven sire in the Angus database can match the WW and YW EPD combination of KCF Bennett Southside at his accuracy.
- **Both bulls rank in the top 1% for WW, YW, CW, \$W, \$F and \$B. Lot 110A is also in the top 1% for RADG.**
- **Lot 110A is the #1 \$B offspring (bull/cow/parent/non-parent) of KCF Bennett Southside in the breed!**

Docility

"After eleven years as a videographer, I have never seen such a docile herd. We took videos after these animals came out of the clipping chute. The enclosure was a single non-electrified Zareba ribbon on push-in posts. Nearly 300 head were videoed without escape or incident."

- Hamilton Farms, Princeton MO selected his maternal brother.
- His sire, "Exploration" posted an adjusted 205-day wt of 797 lbs without creep feed. That was 130 lbs greater than the average of the next three contemporaries that went on to win the Midland Bull Test "World Champion Pen of Three Bulls". Exploration is a genomic standout as well as an EPD outlier. His 50K ranked him in the top 1% for WW, YW, and CW, top 2% for CEM, RE, and Fat, top 10% for SC and Doc. Unfortunately, Exploration was lost to an injury while on test and only a very limited semen inventory remains.

Top Dollar Angus Feeder Calf Program

Top Dollar Angus is a genetic-certification and marketing company focused exclusively on the top 25 percent of the industry in carcass and growth Angus and Red Angus-influenced feeder cattle. Top Dollar Angus is a program similar to other popular branded-beef programs, except that Top Dollar Angus does its branding in the feeder cattle and calf market.

Qualified herds must have two or more generations of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25 percent of the breed based on documented historical sire use. DNA evaluation conducted by Zoetis or GeneSeek is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo, and will be promoted aggressively to a large number of feed yards and buyers. In today's market, Top Dollar Angus cattle are seeing premiums ranging from \$30 to \$70 per head above the average market.

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder's pocket, which can be passed back to the producer in the form of premiums paid above market price.

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feed yards are tired of unpredictable performance and wide-ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but are very different genetically. That's why the genetic certification of high-end Angus and Red Angus feeder cattle is here! The industry must differentiate the best Angus and Red Angus genetics from average cattle, and that's what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus or Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle, our goal is to create more demand and higher prices for your calves.

Bull Wintering Agreement

All bulls selling in the 2XL Angus Dispersion can be wintered at the Kreuder Farm from sale day to April 1st 2019 at a cost of \$350 per head, due on sale day. Bulls remaining after April 1st will be charged a daily rate at \$3.50. These bulls will receive the same feed ration and care that bulls received in previous years. In addition, yearling weigh data (on 2018 bull calves) will be collected and processed with the American Angus Association.

Bull buyers can take advantage of a 20% down payment option on bulls left at the farm with final payment due on the April 1 pick up date. Under the provisions of the program, the 2018 born bulls will be guaranteed to pass a fertility examination in the spring of 2019. The 2017 fall bulls and herd bulls have recently passed a breeding soundness exam. Buyers assume full responsibility of the bulls they buy on sale day. Insurance will be available at the settlement desk. Buyers will be required to take insurance on bulls left for the wintering program if they take the 20% payment option.
