Dear Cattlemen,

It is with very mixed emotions that we welcome you to the dispersion of the Michael and Lindsay Booth fall calving division of Cherry Creek Ranch. As the fourth generation in this operation, we were very fortunate and blessed to start out with an extraordinary cow base. We feel we have taken that base group and continued to improve them by being very selective with foot structure, udder quality, disposition, and fertility. We have culled our herd very intensely over the past ten years to offer this type of quality. These females are sound, easy fleshing, and will continue to produce in the years to come. We believe these cows will go out and work hard in any environment. There are 19 Pathfinder® cows in the sale, which means 25% of the females that are old enough to go Pathfinder® have done so. This also shows that we are offering 100 head that are age 4 or younger. This is a very young set of females with a very bright future.

The Eva cow family has its stamp all over this sale. The Eva family started in the early 1970's with a cow purchased from the Jorgensen Brothers in South Dakota by my Grandfather, Gordon. This cow family is strong in fertility, calving ease, and performance. We are offering some of the very best genetics from this family in this sale. These females have a long history on this ranch and will work on yours. You will find numerous Pathfinder cows stemming through this cow family. The most recent achievement of this great cow family was raising Cherry Crk Land Grant, who was purchased by ABS Global and Knoll Crest Farm in Virginia this last year. You can purchase these cows with confidence knowing that they will continue to work for you.

Lindsay and I are retaining the heifer calves from this year's calf crop and converting them into a spring herd. Our family operation with Shawn and Diane Booth and Kacey Booth will continue to offer registered Angus bulls in our annual sale in February. Shawn and Kacey will continue to offer a complete set of PAP tested fall bulls and we will add a solid set of yearling bulls. We want to thank you for considering our genetics for your herd. Please contact us with any questions.

God Bless,

Michael and Lindsay Booth

It is with great enthusiasm that we present the Complete Dispersion of the Michael Booth Fall Calving Sale. You see, it is only on the rarest of occasions that a Cherry Creek female is ever released from this mostly-closed breeding herd. Most all of the cows and heifers offered in these pages are three to 10 generations of Cherry Creek breeding. Even more, the breeding program has been built on the backs of leading AI sires. At our last count 70 breed-leading AI bulls are the direct sires of the females selling and the pasture sires that were used, were selected from the very top of their contemporary groups and rival their AI

counterparts in every respect.

It was a great pleasure to report the immense amount of data that has been collected on this cow herd through the many, many years of religious reporting of individual performance and ultrasound measures. This catalog has been our humble attempt to document all of the statistics that reveal the genetic worth of generations of selection where only the best-of-the-best were retained in the program.

The bulls bred in this renowned herd have walked the pastures of many of the most distinguished Angus breeders and the runs of leading AI studs. But, most important, they have met the demanding needs of the most discriminating customers in the beef industry – their commercial customers resulting in one of the most successful annual bull sales in the west. You will have the rarest opportunity to incorporate this herd sire production factory into your own program. Case-in-point: the dam of the \$18,000 Cherry Creek Payweight C232M selected by Dyer Ranch, Crawford, NE will be offered; as will the grandam and great-grandam of Cherry Creek Land Grant, the recent addition to the ABS roster and Cherry Knoll herd sire team.

Plan to be with us in Veteran, WY on June 26th or follow the sale on DV Auction. Your pre-sale inquiries are always encouraged so be sure to call us or Michael Booth with the contact information provided.

Respectfully,

- C232 gained national attention as the \$18,000 top-selling bull of the 2017 Cherry Creek Bull Sale to Mike Dyer and Family, Crawford, NE.
- He set new levels of performance at Cherry Creek with individual performance of BW 75 lbs, BWR 97, WW 694 lbs, WWR 102, YW 1166 and YWR 112. After impressive Genomic results were returned, "C232" earned EPD values in the top 2% for WW, YW and CW with a \$W value in the top 1% and \$B value in the top 10%.
- "Payweight 1682" is an ABS featured calving ease sire that is transmitting extra rib dimension and muscle mass. A daughter was a \$32,000 highlight of the 2017 National Western Foundation Female Sale and yet another topped the 2018 event at \$40,000. The two top-selling bulls of the 2017 Midland Bull Test were also sons of "1682".
- His dam has over \$30,000 in progeny sales on three natural-born sons, while his grandam is a second-generation Pathfinder® dam that has produced three Pathfinder® daughters.
- His dam sells as lot 1.
