Dear Cattlemen,

Our family would like to welcome all seed stock producers and commercial cattlemen alike to this offering of foundation females. We are dispersing the entire spring calving cowherd and the mature fall cows, as well as a select group of fall bred heifers.

With the extreme drought we went through last year, and the short water supply for irrigation this year, we find ourselves extremely over stocked. We will still be calving around 350 fall cows and heifers by September!

With our 50th annual bull sale coming in 18 months, our family is proud of this breeding program that has been so strongly supported by customers that realize genetic value.

We certainly hope you take a look at this opportunity, whether you are a long time angus breeder or just starting out, this cowherd has excelled for generations and are bred to do that for you.

We encourage you to call us if you have any questions on the offering. You can view the females online several weeks before the sale at DV Auction. Be sure to register with them well before the sale if you are unable to attend. If you can attend, we look forward to seeing you. Steaks at 11:00 sale at noon.

Hope to see you on the 21st.

Sincerely,
The Booths

Greetings Cattlemen,

This outstanding female offering will highlight the Dianna family that produced the Pathfinder ABS sire, Cherry Crk Higher Standard; Eva family that beget Cherry Crk Payweight C232M and Cherry Creek Land Grant, both featured at ABS; the famed Thunderella clan that traces to the foundation Pathfinder, MS CC Thunderella 58 to name a few. We will feature two up-and-coming stars in the Cherry Creek breeding

program that will sell in their entirety. Lot 1 is Cherry Crk Blackcap B6 S the accomplished daughter of PA Safeguard 021 whose greatest achievement to date is her 2019 son that was the \$98,000 top selling, Cherry Crk Skyline G313 S selected by Baldridge Performance Angus, NE. In addition to, Lot 2 - Cherry Crk Envita B211 S, a Broken Bow daughter that gained national attention when her son Cherry Crk Blue Collar G275 was chosen by Baldridge's from the 2021 Cherry Crk Sale where he posted a WWR 104, YWR 108 and a PF50 genomic profile with six % rankings in single digits.

The Booth family members are sticklers about collecting performance data, ultrasound measures, DNA samples and PAP testing. No one in the Angus industry goes to greater lengths to gather and publish the data necessary to help you prosper in this industry, whether commercial or registered breeders; rangeland or corn belt, high elevation or flatlander. Talk to their many, many repeat customers from volume buying commercial cattlemen, progressive Angus breeders or AI studs – they will tell you that these genetics work under all business scenarios. Keep in mind, this is a complete dispersion of all spring pairs, spring bred heifers and fall foundation cows and their 2019 fall daughters.

The hard work has been done. By sale day AI breeding on spring cows and heifers will be completed. All you need to do is make the genetic choices that will help you upgrade your base herd, acquire that new donor or secure replacement heifers with unlimited genetic potential. We look forward to greeting each of you at the Cherry Creek Ranch on June 21st or join us on DV Auction for this historic Angus event.

Respectfully
