SAV Blackcap May 4136
Great Grandam of Lot 51

- Individual Performance: BW 65 lbs.
- Dam's Production: BR 1@100, NR 1@100, IMF 1@100, REA 1@100, Rib Fat 1@100, Rump Fat 1@100.
- His nationally acclaimed grandam, SAV Blackcap May 1657, comes from one of the great cow families at Schaff Angus Valley. Previously working as an accomplished donor for Justin Dikoff, she produced north of \$200,000 in embryos and progeny to some of the most progressive breeders, and finally selling as a feature in the 2018 Hawkeye Country Sale at \$27,500. Her dam is the legendary SAV Blackcap May 4136 who has had a tremendous run at Schaff Angus Valley, where she has more than \$9 million in progeny sales. 4136 is, without argument, the most prolific and remunerative Angus cow the breed has known.
- His sire, Quarterback, was a \$160,000 sensation of the 2018 SAV Sale now features on the Genex roster. Quarterback fosters breed-leading growth (top 1% WW and YW), maternal function, and superior phenotype. His dam, SAV Blackcap May 3525, is a maternal sister to SAV Blackcap May 4136.

Fellow Cattlemen,

I want to thank all of my customers for your support over the past nine years. I wish you all continued success with the stock that you purchased from me. It was a bittersweet decision to disperse my Angus herd. My dad is my sole day to day help and cancer has made it more pressing to let him stop and enjoy retirement.

This journey began in 2012 with 20 Foundation cows from Mead Angus Farms. I worked to improve the genetics with an AI and embryo transfer program designed with the help of Coy Young at Young Angus Farms. I purchased top clean-up bulls from Sydenstricker Genetics and Knoll Crest Farms over the years, one of which is in the sale (K C F Bennett Way UP E530). With a focus on genetics I created exceptional females and bulls that rank in the top percentages of the Angus breed. K C F Bennett Way Up has been the driving force in increasing overall genetics in my herd. I focused on docility, female traits and carcass, with an overall well-rounded animal as my goal. I retained the top females to create a herd that I am extremely proud of; only five females have left the farm over the years.

I have truly enjoyed working on the genetics of my herd. In 2021, SCA Blackcap Empress C117 became a Pathfinder cow. Next year, SCA Polly D120 and Mead Bonnie J581 will also attain Pathfinder status. The bulls this year are genetically the best bulls I have ever raised. If you are looking for elite genetics, this offering has something for you. These bulls will add pounds at weaning as well as extremely good carcass merit.

I put my heart and soul into this herd and worked hard to fine-tune the genetics over the years. It will be really tough to see them go. I hope my herd can improve your genetics and produce exceptional calves for years to come. Once again thank you for your interest in the sale.

God Bless,
 Tammy Galang
 Sandy Creek Angus

Dear Angus Friends,

Each year June marks the near end of spring calving, the joy of turning pairs out on green grass pastures and the promise of a summer filled with Angus activities. One of the most anticipated Angus events each year is the Hawkeye Country Sale which unveils a new crop of breeding stock ready to prosper in their new homes. This year, perhaps more than ever, the offering set a higher bar for quality and quantity. Leading the parade will be three major herd reductions from small, but elite Angus programs that have been long-time contributors to past Hawkeye Country and Midwest Connection Sales.

Herd bulls abound, with four elite sires used in registered breeding programs, just in time for spring "turn out". The number of AI sired, high EPD, high performance, top of the contemporary group bulls is unprecedented in Hawkeye history. Again, this year, we have proven donors, spring pairs, fall bred and a tremendous selection of spring yearling heifers. Many will be short bred to AI sires, others left open to breed to the bull of your choice. Several select Simmental and Red Angus bulls and young cows are in this year's mix. Finally, we have several sets of embryos from elite donors and thoughtfully mated to leading sires, as well as a flush opportunity of the highest caliber that could put your program on the map. Lastly we want to thank the Missouri Angus Association for their assistance.

Join us for this traditional summer Angus activity and enjoy some southern Iowa hospitality brought to us by our friends at the Bloomfield Livestock Auction.

*See you on June 2nd
