Cattle will be available for inspection on Sunday, Feb.3 at the sale site. The cattle may be viewed at the Frederick, SD location anytime prior to the sale, call to make arrangements.

HEALTH:

Interstate health papers furnished on all cattle selling.

EPDS & \$VALUES:

The American Angus Association is now calculating EPDs on a weekly basis using all available carcass harvest data, ultrasound data and the Igenity Angus specific genomic profile data. It is possible new data has been submitted between the date the catalog was finalized and sale day, which will affect the individual EPDs and \$Values indexes of the animals selling. If your purchasing decision relies highly on the most current data available, please look up animals of interest on the American Angus Association web page prior to viewing the sale offering.

TERMS: Cash - please settle for cattle promptly.

TERMS & CONDITIONS:

All cattle sell according to the standard terms and conditions of the American Angus Association.

TRUCKING: We will be glad to assist in making the best possible trucking arrangements.

INSURANCE:

Will be available sale day through Conover Auction Service, an American Livestock Agent.

LIABILITY:

All persons attending this sale do so at their own risk, legal or otherwise for their safety or the behavior of the animals. The Owners, Auction Service and Sale Staff assume no liability for property loss or any accidents that may occur.

ANNOUNCEMENTS:

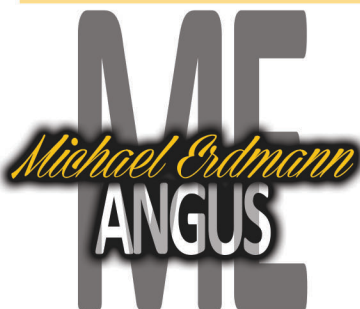

From the block will take precedence over the catalog. Buyers unable to attend may send their bids to the Auction Service, Field Representatives or Auctioneer.

LUNCH: Will be available sale day.

Welcome, friends old and new,

Another year has come and gone, and sale time is here again.

This year's sale cattle have been fed twice daily, a high roughage, balanced diet of silage, earlage, mixed hay and corn. Also in the ration, are chelated minerals with a high level of vitamins and amifirm to help them reach their genetic potential..

We are selling all of the 2018 heifer calves except 5 head. Again, there will be a handful of two year old bulls.

The sale will be at Sumption Farms, Frederick, SD this year. We will also be having a video sale this year, but the cattle will be on display for your inspection.

We strive to breed cattle that are structurally sound, fertile and can survive in our harsh South Dakota climate. We also believe these cattle have a great disposition second to none.

We greatly appreciate your business, and hope to see you on sale day.

Thank you,
Michael Erdmann

Dear Cattlemen,

The Michael Erdmann Angus Sale has matured into an annual event of great significance and a proven source of genetic material that capitalizes on premiums paid for the superior calving ease, efficient growth, maternal and carcass attributes bred in. These cattle have not only survived, but, thrived for 10 or more generations of natural selection and stand ready to reveal their genetic potential in your operation.

It is an important time in the cattle industry with abundant supplies of red meat, but consumer demand has not waived. Especially for premium beef in the upper two-thirds Choice and Prime. Profit margins remain thin so getting your breeding program in a place where you can capitalize on CAB premiums and the like is more than nicety - it is a necessity. Michael Erdmann has met the calling with AI sires on the forefront of the industry and walking herd bulls that bend the growth curve.

Plan to join Conover Auction Service in Aberdeen on February 5th for this important Angus event. We welcome your pre-sale inquiries at our office or any of the contact numbers provided.

Sincerely,

*Al and Jeanne Conover

BLACKink BASICS

Angus Genetics Grow Profit Potential

Crossbred calves can deliver part of the package, but the bottom line is that Angus cattle gain and grade. New evidence says high-percent Angus cattle make money at every link in the production chain, returning \$68 per head more than low-percent Angus cattle.

Comparison of the net increase in dollars per-head returned due to Angus genetics.
