We would like to welcome everyone to the first Moon Creek Female Production Sale. It is with great pride and humility that we are offering this set of females to the public. Although this is our first independent sale, we have been in the Angus business for well over 20 years. Our family has had the privilege of being a cooperator herd for Baldrige Performance Angus of North Platte, Nebraska. The bulls produced through this arrangement have been sold and marketed through the Baldrige Sale since we've started. The resulting females have served as the backbone for the entire Moon Creek cow herd. We have truly enjoyed working with the Baldrige crew and value their continued friendship, guidance, and knowledge of the Angus industry. We continue to operate a very aggressive embryo transfer program and have outgrown our existing facilities and therefore created a need to reduce our numbers. Our headquarters are located in Northwest Iowa, but continue to have cattle in South Dakota which is why we chose to have the sale in Mitchell, SD. We hope you can join us in central South Dakota on June 14, 2021. If you are not able to attend, the sale will be broadcasted live on DV Auction for your convenience. Please call if you have any questions. Thank you for your consideration in our program. God Bless!

Dear Angus Friends

It is with great enthusiasm that we present the first Moon Creek Farms Angus Production Sale. You will undoubtedly recognize at first glance that Moon Creek Farms is a satellite herd for Baldrige Performance Angus in Nebraska. However, know that the Krull family has put their own finances and forethought into motion by purchasing several genetic assets such as the \$77,500 acquisition of Baldrige Hombre D748, Baldrige 8 Ball, and Baldrige Harmony H093, as well as the donor dam, Erica of Ellston R65, the \$22,000 Moon Creek/ Hansine Ranch Partnership donor dam, and a full

sister to the "Fab Five" set of five flush brothers that averaged \$23,800 at the 2017 Hoover Angus Sale.

All of the cow families that have made Angus history for Jud Baldrige are represented in this prestigious offering. Several daughters and granddaughters of the famed Baldrige Isabel Y69 are represented either maternally or paternally in the sale, as are members of the Pratissa tribe tracing back to Baldrige Pratissa W165, dam of Baldrige Forcaster B160 through his flush sisters "B170", "B177", and "B139". We will feature granddaughters of Baldrige Blackbird A030, the breed's most celebrated daughter of Hoover Dam. Her production resume includes the \$155,000 Baldrige Command C036 at ABS; the \$120,000 Baldrige Alternative E125 and the \$250,000 2021 top seller, Baldrige Versatile. One of the newest and white-hot cow families added to Baldrige and Moon Creek programs was the addition of Byergo Clover 150. We will be highlighting four direct daughters in the offering including the featured Lot 1 cow, Baldrige Clover G1002, that is a full sister to Byergo Hart Maternal Power, the \$40,000 Hart Angus Farms selection from the 2021 Midland Bull Test. The highly acclaimed bloodlines, Erica of Ellston, Forever Lady, Primrose Lady, Evergreen, Made-moiselle, Duchess, Blackcap Mary, Rose, Queen, and Blackbird families that are synonymous with bull sale success stories for the Baldrige program that are represented here.

As always, full disclosure of production, individual performance, EPDs, and genetic description are part of our catalog. Make sure you use it to your advantage when making your genetic selections. We welcome your pre-sale inquiries by calling the Conover Auction Service office or any of the mobile numbers listed in the contact information. We look forward to greeting each of you in Mitchell, SD on June 14th- or join us on DV Auction for this "Special Angus Female Sale".

Respectfully, Al and Jeanne Conover

- G1170 is a maternal sister to the \$60,000 Baldridge Limitless, second top selling bull of the 2020 Baldridge Performance Angus Sale.
- Volumes could be written about this cow family. Not only the scope of the progeny sales but also the ability to breed superiority into both bulls and females. Moreover, GrowSafe systems, a large repository of multi-breed feed efficiency data released the top 150 high accuracy bulls, and 3 of the top 4 bulls for RFI were sons or grandsons of LB6807 Isabel 339 the foundation of the Baldridge Isabel family.
