Dear Cattlemen,

The Salers breed, and these breeders in particular have been addressing the needs of their commercial customers for the last 40 years, delivering consistent calving ease, growth and maternal ability in an unforgiving environment. In more recent quests, these aggressive breeding programs have set their sights on producing predominantly black, polled genetics with particular attention to phenotype, disposition and fertility. The 2014 National Salers Sale offering is an elite representation of those earnest endeavors. Both the females and bulls in this offering come from some of the best herds and genetics in the country as evidenced by their enviable performance and show records.

We look forward to greeting each one of you in Denver on January 20<sup>th</sup> for the 2014 National Salers Sale and for all the Salers activities "on the hill" and "in the yards".

Sincerely,

*Al Conover*

*Dave Sweeney*

*Jim Shirley*

At the upcoming National Western Stock Show, the American Salers Junior Association will be raffling off a heifer at the National Salers Sale. The heifer raffle will be during the auction. The auctioneer will auction off raffle tickets at intervals of \$10.00. For every \$10.00 paid the purchaser will receive one raffle ticket. For example: If you bid \$250 at the auction, you will receive 25 raffle tickets for the drawing. After the raffle segments of the auction, tickets may still be purchased throughout the sale at \$10.00. The drawing will be held at the National Salers Sale on January 20, 2014. The winner does not need to be present to win. All proceeds go to the American Salers Junior Association. If you have any questions please contact the ASA office.

**“BULL POWER” FUTURITY CHAMPION BULL**  
*Selling Full Possession & 1/2 Semen Interest*

The “BULL POWER” Salers Sire Futurity is one of the most exciting events ever to be held in conjunction with the National Salers Show. The Futurity is a showcase for the breed’s best young sires ... the bulls that are destined to have a major impact on the future of the Salers breed as their genetics are propagated within the breed. The Futurity consists of Salers breeders who annually buy a membership to the Futurity. This elite group of breeders will decide which bull will be named the Futurity Champion Bull and receive the substantial cash award that goes with this selection, hence the name “BULL POWER”. For this investment, a Futurity Member may enter up to two bulls in the “Bull Power” Futurity and is allowed one vote for selecting the Futurity Champion Bull plus 30 units of semen on the Futurity Champion Bull and the sole right to register calves sired by the Futurity Champion Bull for the first two years of his productive life. Furthermore, one Futurity Member will have his name drawn to win the sale proceeds from the sale of the Futurity Champion Bull when 1/2 interest and full possession is sold in the National Salers Sale. Each of these bulls entered in the 2014 “BULL POWER” Salers Sire Futurity possess the phenotype, the genetics and the performance to win this prestigious event. However, only one bull can be chosen by this noble group of Salers breeders who will decide which bull is destined to join the ranks of the breed’s great sires when he is selected as the 2014 “BULL POWER” Futurity Champion Salers Bull.

The breeder of the Futurity Champion Bull relinquishes his ownership once the bull is named but will retain a one-half Semen Interest for in-herd use only. Terms of the Sale and the Buyers Purchase Contract, which is to be signed by the buyer(s) of the “Bull Power” Futurity Champion Bull, will be available upon the announcement of the Futurity Champion Bull.

- ♦ BW 86 lbs., 205 Wt. 715 lbs. (no creep)
- ♦ Dam's Production: 16 BWR 100, 13 NR 100, 6 YR 100
- ♦ This son of the 2009 National Champion Bull, H&S Tonka comes from a dam that is loaded with capacity and volume and has been a great asset to the entire breed.
- ♦ JCGC Razberry 502R is a proven donor with strong maternal traits. She was twice Reserve Champion Female at the North American and Champion Female at the Salers Junior Nationals.
- ♦ MAZ Off The Rocker is a moderate framed bull with extra length and lots of capacity.
- ♦ He has real thickness over the top and down through his lower quarters. He stands squarely on all four corners and his docility is second to none.

- BW 67 lbs., BWR 97, 205 Wt. 816 lbs., WWR 100
- Dam's Production: 2 BWR 93, 2 NR 100
- Here is another great "Paparazzi" bull calf. This is one cool patterned bull smooth made from front to rear, big hiped, with great extension in his front end.
- With a modest BW of 67 lbs, this bull has some calving ease potential. His dam is a "Saturn" granddaughter out of one of the best cow families. She is big bodied with a perfect udder.
- Look to this bull to add eye appeal and red meat to your next calf crop.

**~ FEMALE OFFERING ~****14**  
*Lot***PICK OF THE SPRING  
2012 OR 2013 HEIFERS***Consignor: West Hills, Fairview, WA*

- West Hills Ranch has graciously donated the proceeds of this lot to the American Sellers Association Foundation.
- This lot consists of the pick of the 2012 or 2013 born heifers from West Hills Ranch.
- Final selection must be made by April 1, 2014 for the 2013 born heifers and February 1, 2014 for 2012 born heifers. The buyers will be provided with complete performance and production records to make your decision.
- The West Hills breeding program is focused on functional, problem-free genetics with a good attitude as the number one priority. These foundation females are moderate framed and easy fleshing. West Hills Ranch doesn't tolerate poor udders or questionable dispositions and that selection discipline has kept repeat customers coming back.
- Bred heifers will calve late March to early April to V1sta, Outback, Bky Sky Solution & OPP 239Z. Primary Sires include: SRS Outback 0908X & OPP West Star 938W.
- Contact Randy or Pam Hruska (307) 389-0987 or Herd Manager Ryan Rarratt (307) 248-1098 for more information.

♦ Selling one-half embryo interest.

♦ An opportunity to own lifetime flush privileges on a female backed by some of the most maternal genetics the Salers breed has to offer.

♦ This pedigree includes Katie 19K (the leadonor at Colmore Farms for many years), Blk Berry 296M (another great cow at Colmore Farms that produced Razberry and the dam of last year's top selling bull THAT Zeppelin 134Z at \$15,000) and finally, Nebraska who is known for exceptional maternal strength.

♦ The successful bidder will receive all of the first flush to the bull of their choice. JB Livestock will receive the second flush. Subsequent flushes will either alternate or be split depending on the number of embryos or on the bull being used. Buyer assumes cost associated with their flushes. Seller wishes to keep the female calving on a minimum 18 month calving interval if adequate eggs are produced in that time frame. Seller guarantees 6 transferable eggs in the first year. Seller will not sell possession or remaining embryo interest for four years from the date of sale. Buyer has first right of refusal on future sale of the female.

## SALERS...STILL THE ONE!

Sustained Fertility...It matters in your females and it matters in your bulls. Salers will challenge any breed for superior fertility and unmatched longevity in females plus serviceable years in our bulls. Sustained fertility is what the Salers breed offers. Bred up as yearling, two's, three's and beyond. As a producer, you control costs it takes to get a female into production. With Salers you "Keep Her In Production".

### *The Continental* with the **MOST** Calving Ease and the **MOST** Marbling

The Meat Animal Research Center in Clay, Nebraska has the largest database for multibreed comparisons, in its most recent release of sire breed means from Germplasm Evaluation project, verifies again that Salers are still the continental breed of choice for Calving Ease and Marbling.

Salers have the lowest and most optimal birth weights coupled with growth and performance for crossing with Angus. It's really as simple as that.

To quote USMARC "Marbling score was estimated to be the highest in Angus. Continental breeds were estimated to be one-half to a full marbling score lower than Angus with the exception of SALERS!"
