To all:

Breeding Black Angus Cattle has been our passion and livelihood for the last thirty four years. There have been highs and lows, but it has been a great run and I have enjoyed it immensely.

Our cows ran in large mtn. pastures, some with multiple sires. We are tissue sampling everything as it is born to verify parentage. If the results aren't ready by press time, be assured, the parentage will be completed even if not ready for the catalog. Better to be accurate than on time! The later calving was by design. As I got older it made less sense to fight mother nature so I planned to move to later calving.

It is with great pride that I think about some of the most recognizable and influential cattle in the Angus breed that have made their living working on our Wolf Mountain Ranch in Montana. That is key, our cattle have always had to work for a living. Just like that jovial friend who is pleasant to work around, Sioux Pass Angus Cattle are highly docile and pleasant to work with. Just like these Montanan farm & ranch kids who excel out in the world, Sioux Pass Angus Cattle excel and bloom when taken to new environments.

I am proud of this sale offering. I think it is a real blending of real world old time cow sense with the latest in science, technology and data available. These cattle are sound, correct, docile, attractive, good footed AND have breed leading genomics and measurables. As you study our first reference sire: Sioux Pass Perfection and the lot #440 and #446 sale bulls, Wolf Mountain 76E and Payweight 69D, you will see this merger of cow sense and science. You CAN have it all!

“Our breeding program has always forced a square peg through a round hole. We have forced performance cattle into a moderate framed efficient package. The shaved edges which fall off are culled from the herd. Our cows purpose is to harvest our feed resource, native range. They have been doing that since they calved and been able to pick thru the snow. These cattle are in good shape; slicked off and in optimum condition. We were among the first to promote feed efficiency. These range convertors exemplify what efficient cattle in optimum condition should be. Come take a look.”

Thank you to my sister and friend, Kari. I know you would do anything for me. I am deeply grateful to so many.

Thank you Pilu for your tenacity and pleasant demeanor while grinding through data and pedigree.

Thank you too, Dan and the feedlot crew, the bulls look great!

A big Thank you to all at Conover Auction Service for a yeoman's job on a big project.

Thanks Mark and Crew at the Animal Care Center, Hardin MT, both, now and thru the years.

Thanks to the Sioux Pass Crew for your loyalty and help.

Thank you Jess and Kara

Thanks to Bob & Joe and the PAYS Crew.

Last, but always the most important to me, Brice and Brock, my sons. I couldn't have done it all without you at my side! Love you boys, always will!

Dear Cattlemen,

I'm sure Carter Miklovich's decision to disperse his renowned Angus herd was one of great emotional tribulation. He is among the breed's most passionate students of lineage and economic values. You can see in this catalog through each succeeding generation, leaps of genetic improvement as he applies his selection tools to offspring of a herd bull battery that is unequalled in EPD prowess, valuation and pedigree diversity.

It appears to those of us at Conover Auction Service that Carter is on the very threshold of Angus greatness with a generation of bulls and females that have challenged former trait antagonisms. Bulls like Sioux Pass Perfection, SPA Wolf Mountain 76E, 44 Stockman Approved, SPA Trump 770E and 44 Regal Duty 747E are such animals with unsurpassed EPD combinations and deeply rooted in cow lines that have survived all of the production and environmental challenges that can be endured in this hostile Montana climate.

We have endeavored to document as much pertinent production and performance information as space will allow. We hope that you use all disclosed data to make the important selections for your breeding operation. Carter believes deeply in genomic evaluation and how useful it can be in making selection decisions. AGI enhanced EPD values are indicated next to the EPD boxes with the appropriate genomic logo.

It has been a joy to work with Carter and Pilu on gathering the necessary information for a fast-approaching sale date. Calving is still going on at Sioux Pass so check our website: www.conoverauction.com for supplement information in advance of the auction. If we can be of any assistance, please don't hesitate to call our office or one of the contact numbers provided.

Respectfully

- Perfection sets a new standard for beef production that proves you can produce a no miss, sleep all night heifer bull with rapid early growth without creating bigger cows. He is also as good as you can make one from a type and kind standpoint....attractive, deep and correct with a great disposition.
- His unmatched EPD profile puts him in a league of his own boasting CED, WW, and YW EPDs in the top 1%, BW, Doc and Marb in the top 4% or better culminating in \$W, \$F and \$B indexes in the top 1% of proven sires in the Angus breed.
- Perfection posted an enviable AnGS genomic result with seven traits in single digits. Worth noting is his WW and YW in the top 1% while his YH of 99% indicates his unique ability to sire rapid growth while moderating skeletal size.
- His sire, Bragging Rights was the \$100,000 genomic superstar that topped the 2015 44 Farms Sale to Twelve Stones Farm in Arkansas as one of the many top-selling sons of the \$110,000 VAR Discovery.
- As his dam's first calf, Perfection balanced a birth ratio 79, a weaning ratio 104, a yearling ratio 111, IMF ratio 107, Rib Fat 80 and Rump Fat 92 while his Hoover Dam granddam records progeny ratios of BR 2@92, NR 3@113, YR 1@107, IMF 2@134 and RE 2@118.

- Described by Carter Miklovich as the "best Hoover Dam daughter in the breed". A meaningful statement from the man that enjoyed walking rights to the popular ORlgen and ABS Pathfinder sire that was the number one semen seller for several years. Hoover dam left 22 daughters working in this breeding program and each one is the definition of maternal merit with moderate mature size, fleshing ability, small teat size, outstanding udder conformation, disposition, and rebreeding performance in a harsh environment.
- Hoover Dam is also renowned as an impeccable carcass sire with over 7200 progeny ultrasound scans boasting an IMF ratio 105, RE ratio 101 and Fat ratio 98.
- Her first born son was a performance standout recording a BW 62 lbs, BWR 84, WWR 111, YWR 117, IMF ratio 117, RE ratio 118 and Fat ratio 95. Similarly, her 2016 son recorded a BWR 99, WWR 101, YWR 107, IMF ratio 150 and RE ratio 117 selling to Mike Blasingame, Clovis CA.
- She enjoys a triple-digit YW EPD, strong carcass EPDs and a \$B value in the top 10% of the Angus population.

- Selected by Sioux Pass and progressive Montana breeders as the \$19,000 feature of the 2014 Riley Bros Sale where she recorded enviable individual performance of BWR 74 and WWR 130.
- Her dam is a full sister to the famed \$170,000 NWFBS record-setter RB Lady Standard 305-890 now featured in the Herbster Angus program.
- Her dam "305-077" is also a full sister to the now deceased ORigen featured sire, RB Active Duty 010 that is a curve-bending phenomenon of unequalled power, stature and eye appeal.
- Her 2016 son, JVC SPA Cavalry 6411 RHR GW was born in the River Hills ET program and now serves the TD Angus herd at North Platte NE where he enjoys calving ease credentials and WW and YW EPDs in the top 1%.
- Sons sell as Lots 465 & 482.
