Welcome to our 32nd Annual Bull and Female Sale.

2018 will go down in the history books as one of the wettest years. From the spring thru the fall and winter months, calves in the Midwest saw snow 5 months during their 9 months of life. Due to all the mud and snow it produced a negative effect on the weaning weights of the calves as they were 50 to 60 pounds lighter than previous years. Also the backgrounding steers were 60 to 140 pounds lighter due to the negative weather conditions.

We were one of the stops on the National Salers Tour in September and were pleased with the nice turnout of people from as far west as Idaho and as far east as Virginia and many states in between. We received many nice compliments on our cattle as did our commercial customers Paul Tolsma and Dan Kafka.

Looking forward to offering our bull calves on March 4th. As always they will be semen checked, have spring shots and ultrasound for ribeye and back fat with final weights.

We are offering 10 heifers in the sale which I hand picked from the top end. One of the ten was sold in Denver at the National Sale bringing \$5,500. MacDonald Ranch of North Dakota purchased the heifer, they will be picking out which heifer they want sale day previous to sale time. The remaining 9 heifers will be offered as they come in the sale ring.

The pedigrees of the heifers are from some of our best cows, full sib to TSB Outback, a 14 year old cow and a 12 year old cow that has had 4 herd bulls sold in past sales. The heifers offered are herd builders, they are full sibs to herd bulls and grandam's of herd bulls.

My point is with today's genetics in the Salers Bulls and Females that we are offering, will absolutely make you more money than any other breed of cattle from birth vigor to feedlot performance or the stability of the Salers females. There is no other breed of cattle that can compare. Some operations are going back to the old and first crossbreeding that we had 30 to 40 years ago. That's fine, but the Salers influence will put more dollars in your pocket every year without question.

Thanks for your interest.
Any questions please call Terry or Jeff

Dear Cattlemen,

We are once again pleased to assist TB Salers with the latest installment of the "Beef Business" Production Sale. The Beeson's are offering another outstanding set of herd bull prospects and a top cut of the TB yearling heifers, right out of the replacement pen. These cattle are backed by one of the breed's elite cow herds formed through strict selections standards for calving ease, moderate mature size, functional soundness and disposition. A TB Salers herd matron continues to be scrutinized throughout her production career for calving interval and performance measures.

This attention to economic value has rewarded TB Salers with a loyal customer base that stretches across a multitude of states. Both purebred and commercial programs will compete this year for the top cut of the 2018 calf crop. The Beesons continue to strive for high value traits through their own genetic selections and you can be assured that this offering is the most current representation of those efforts.

Whether your interest lies in valued herd replacements or bulls that will add to your bottom line, it behooves you to be in Yankton, SD on March 4th.

If we can assist you in any way, please don't hesitate to contact this office of the Beeson family.

Sincerely,
Al and Jeanne Conover
Dave Sweeney
