jibeeson920@yahoo.com

Welcome to our 33rd Annual Bull and Cow Sale.

We again made history in 2019. Everyone was glad to get 2018 out of the way, but 2019 proved to be wetter with historic floods of March, again in April, and in our area. September 2019 will always be remembered with the big rains and historic flooding that did damage to crops, pasture and fences that will take all of 2020 to get repaired.

The calves weaned light again. The bulls for the sale have gained good and look real good. As always, they will be se-

men checked, have spring shots, 2 rounds of foot rot, ultrasound for ribeye and back fat with final weights.

We are offering 10 heifers in the sale featuring 7 from ECR Eastwood 713E, the \$8,000 bull from Elm Creek Ranch. The Epds look good.

We are in a new decade, 2020. The next two to five years are going to be real good for agriculture with better prices for grain and cattle prices, I think will top the top of 2014 and 2015. I have always said what goes around comes around.

Be prepared for the good times by the best genetics you can afford and don't forget crossbreeding is free and produces more pounds of beef and the Salers cow has longevity over the straight bred cow.

Thanks for your interest.  
Any questions please call Terry or Jeff

DAVE SWEENEY 641-373-4340

Dear Cattlemen,

We are once again pleased to assist TB Salers with the latest installment of the "Beef Business" Production Sale. The Beeson's are offering another outstanding set of herd bull prospects and a top cut of the TB yearling heifers, featuring the complete surrender of the highly anticipated ECR Eastwood 713E daughters. These cattle are backed by one of the breed's elite cow herds formed through strict selections standards for calving ease, moderate mature size, functional soundness and disposition. A TB Salers herd matron continues to be scrutinized throughout her production career for calving interval and performance measures.

This attention to economic value has rewarded TB Salers with a loyal customer base that stretches across a multitude of states. Both purebred and commercial programs will compete this year for the top cut of the 2019 calf crop. The Beesons continue to strive for high value traits through their own genetic selections and you can be assured that this offering is the most current representation of those efforts.

Whether your interest lies in valued herd replacements or bulls that will add to your bottom line, it behooves you to be in Yankton, SD on March 2nd.

If we can assist you in any way, please don't hesitate to contact this office or the Beeson family.

Al and Jeanne Conover

## Big Sky Document 14D

Reference Sire B

- Document is a double-polled, double black Purebred.
- 7 sons and 2 daughters in this sale offering will represent the first calf crop by this outstanding young TB Salers herd sire that produced the #1 and #3 205-day wt bulls in the 2018 sale.
- Document has been used quite successfully on heifers two years in a row. He is a bull that will stay on the herd sire roster for years to come.
