Old Friends and New,

Hello there and thank you for taking the time to look into our program. It has been many years and many new friendships in the industry that has given us the pleasure of being here today with this set of cattle ready for your appraisal. We believe that with the focus on traits that put carcass composition to the forefront, we can create cattle that will transmit profitability to any segment of the industry. Our main goal is to create cattle that will create profitability and longevity within your herd. As you look through this offering, you will be able to see the focus we have emphasized on a strong number profile combined with a strong emphasis on phenotype. The cattle that can successfully combine genotype and phenotype are the cattle of the future.

We would like you to buy these cattle with confidence. All bulls and females selling will do so with a proper Breeding Soundness Exam. The bulls, to the best of our knowledge, are breeders and will sell with a 90-day breeding season guarantee. The females will sell under the terms and conditions suggested under the American Angus Association.

You have many options in your selection for genetic improvement for your herd. We are honored that you have given us the time to try to earn your business in the future. Please accept our invitation to join us April 8th for a warm meal and fellowship with friends in the industry. We look forward to speaking with you very soon on how we can help you with your herd building needs.

Sincerely,

Ehren and Jim Marks

Sale Managed By:

Dear Cattlemen,

I have watched with real appreciation as this young herd grew from a well-thought genetic vision to a well-executed acquisition of superior seedstock now poised to deliver an Angus product unequaled in Iowa. Marks Family Purebreds have already highlighted recent Angus events such as the National Western Foundation Female Sale, National Western Angus Bull Sale, Hawkeye Country Angus Sale, Iowa Beef Expo and more. On April 8th they will launch their Inaugural Production Sale that I predict will become one of the most anticipated in the state.

Everything has been done to assure your satisfaction and knowledge of the bulls or heifers you choose. With only a few exceptions, this offering has been weighed at birth, weaning and at a year; ultrasounded for carcass traits, and evaluated by 50K DNA analysis. Those results have been incorporated in the catalog as well as dam’s production and complete EPDs and $values.

This offering features the successful results of an aggressive AI and ET program as well as progeny of natural service sires of superior phenotypic and data quality. Most of this offering excels under EPD scrutiny with many in the highest ranks of the breed. As a case-in-point, the lot 1 bull is the #2 SB son of Quaker Hill Manning in the breed and he deserves the serious attention of progressive Angus operations.

Please plan to join Jeanne, Dave and myself in Aplington IA on April 8th. Contact our office, Ehren Marks, or any of the numbers listed with your pre-sale inquiries.

Respectfully

Al Conover
