INSPECTION OF CATTLE: Cattle will be available for inspection on Saturday, February 3rd at the sale site. The cattle may be viewed any time prior to the sale. Call Michael to make arrangements.

HEALTH: Interstate health papers furnished on all cattle selling.

EPDS & \$VALUES: The American Angus Association is now calculating EPDs on a weekly basis using all available carcass harvest data, ultrasound data and the Igenity Angus specific genomic profile data. It is possible new data has been submitted between the date the catalog was finalized and sale day, which will affect the individual EPDs and \$Values indexes of the animals selling. If your purchasing Decision relies highly on the most current data available, please Look up animals of interest on the American Angus Association website prior to viewing the sale offering.

TERMS: Cash – please settle for cattle promptly.

TERMS & CONDITIONS: All cattle sell according to the standard terms and conditions of the American Angus Association.

TRUCKING: We will be glad to assist in making the best possible trucking arrangements.

INSURANCE: Will be available sale day through Conover Auction Service, Jeanne Conover 515-491-1335.

LIABILITY: All persons attending this sale do so at their own risk, legal or otherwise for their safety or the behavior of the animals. The Owners, Auction Service and Sale Staff assume no liability for property loss or any accidents that may occur.

ANNOUNCEMENTS: Announcements from block will take precedence over the sale book. Buyers unable to attend may send their bids to the Auction Service, Field Representatives or Auctioneer.

PHOTOS: by Horizon Marketing Agency, Marni Gaskill 406-853-8426

LUNCH: Will be available sale day.

ANGUS MEDIA Visit the Angus Journal Web site, www.angus.org and view this sale book online. References: American Angus Association®, AHIR®, AngusLink®, CAB®, Pathfinder®. EPDs contained in the original printed version of this sale book were current as of the printing date. Digital versions of this sale book online at angus.org will have EPDs updated every Friday. Any PDFs downloaded from the website will contain EPDs current as of the date of the download.

WELCOME TO THE SALE

Welcome Friends Old and New!

Another year has come and gone, and this year has brought with it some changes. This year's sale offering will be a dispersion of our registered cattle.

It will include 57 yearling bulls and 61 yearling heifers. All breeding aged females selling have been ultrasound examined safe and have an estimated due date in the catalog.

One of the most exciting females we have had on our place is Lot 70. She is known as our 202 cow. She has been a donor in our herd for years and her progeny have produced year in and year out. Make sure to take a close look at her.

This year's sale offering has been fed daily a high roughage, balanced diet of silage, earlage, mixed hay and corn. Also in the ration, chelated minerals with a high level of vitamins and amaferm to help them reach their genetic potential.

We strive to breed cattle that are structurally sound, fertile and can survive in our harsh South Dakota climate. We believe these cattle have great dispositions, second to none.

We greatly appreciate your business and friendship over the years. We hope to see you on sale day, February 4th at Hub City Livestock in Aberdeen, SD.

Sincerely,
Michael Erdmann

Fellow Cattle Producers,

For over three-quarters of a century, the Erdmann Family has been dedicated to raising Angus cattle in South Dakota, spanning five generations. Michael embarked on his own journey 23 years ago by acquiring six females from his father's sale. In the subsequent year, he expanded his herd with the purchase of an additional 22. These 28 females have since formed the core of the cow herd that Michael meticulously nurtured and developed.

Michael made the early decision to selectively retain females from his own herd to capitalize on the maternal mating decisions he meticulously scrutinized that would result in outstanding feed efficiency, docility, and moderate carcass merit. This choice stemmed from his desire to not only be well-acquainted with the genetic makeup of his cowherd but also to capitalize on their exceptional maternal disposition.

Upon reviewing this sale selection, you'll gain an understanding and admiration for the enduring maternal qualities of Michael's cow herd. When we began to collaborate with Michael last year, I found myself seeking confirmation – was I grasping the situation correctly? Many producers turn their cow herd every 7 years, but many of Michael's cows were from as far back as 2007 and 2008. Longevity is the cornerstone of the Erdmann operation. Michael knows commercial producers demand females that can perform for more than seven years. His cattle are bred for the real world where they consistently produce calves year after year. As you examine the females available in the sale, you'll notice that they boast impressive nursing ratios, with certain females achieving 11 or even 12 nursing ratios above 100.

That consistency in productivity is second to none and it shows. Michael has been a participant of the Angus Association's MaternalPlus program since 2019. His steadfast belief in submitting data for all his calves underscores his dedication to identifying and prioritizing the superior performers among their contemporaries.

We invite you to take a look at the cattle on Saturday, February 3rd or if you'd like, give Michael a call at 605-380-7275 to schedule a time to view them. Make plans to join us on Sunday, February 4th to celebrate Michael's dedication to the Angus Female and the Angus Breed.

Sincerely
Chris Stallo

ABOUT MICHAEL ERDMANN ANGUS

Family Owned Angus Operation Since 1947

This breeding program and management decisions by Michael Erdmann offer a balance of profit driving genetics and practical phenotypes in the cattle in this sale offering. The basics of Angus cattle evaluation for traits such as structural soundness, udder quality, disposition and reproductive efficiency have never been more important than they are today. They have been developed since birth on a forage-based diet. Their dams have spent their lives grazing northeast South Dakota pastures, letting Mother Nature sort those who perform from those who do not. This breeder has strived to produce honest cattle that will breed true and won't quit regardless of how tough the environment gets. These females have the reputation of producing calves that are uniform, easy doing and well balanced with predictable pedigrees designed for optimum and profitability. They are designed to thrive under common sense conditions, just like yours.

In recent years, the American people have put a high priority on convenience. Drive-thru banks, microwaves, instant foods, convenience stores, fast food restaurants and electrical gadgets of all kinds, are in demand because time is important to people. People that have cowherds are not an exception to the rule. The most economical way to save time in a cow and calf operation is to buy cattle that are time efficient. Cattle that are easy to handle save time. In the Erdmann herd, cattle that are gentle, docile and easy to work are selected. All Angus cattle have roots and in the Erdmann herd you will trace genetics with trouble free feet, unassisted births, long life, fertility, milking ability, good udders, saleable breeding cattle, plus the ability to produce on roughage. Michael Erdmann selected his herd base 22 years ago when he purchased 22 head in the Jerry Erdmann Dispersion. These cattle have not only survived, but thrived for 10 or more generations

of maternal selection on harsh South Dakota prairie and stand ready to reveal their genetic potential in your operation. Michael has built a program around a concept that a cow has to do only six things and do them well in order to remain viable in the operation. The Six Essentials, as they came to be known are: hardiness, weight, conformation, fertility, milking- ability and disposition. Genetics are in place here to survive blizzards or drought and produce year after year. This is a breeders dispersal with genetics from a true breeding program. Michael Erdmann has preserved the coveted Angus traits in brood cows that have the fundamental traits to raise in a good calf in any environment and that is their reputation.

BULL WINTERING PROGRAM AVAILABLE

Michael Erdmann Angus is offering a bull wintering program until May 1st for \$350 per bull. Bulls will be guaranteed breeders but will not be covered for any injury or death. Buyers are encouraged to purchase mortality insurance for 6 months at 4.3% or for 1 year at 6.5% (best deal), sale day through Jeanne Conover 515-491-1335.
