LAR Man In Black

Connealy Craftsman

Greetings from Brand Angus,

We are thrilled that you have taken the time to look through our sale offerings. There comes a time in all our careers when it is time to slow down a bit. I guess this is it!

We are selling all females, 5 year olds and younger. They all have good feet, excellent dispositions, they are easy fleshing, have good carcass data, and have nice udders.

A little history on our herd goes somewhat like this. We started in 1974 and have focused on providing good looking, high valued cattle. Our first donor, Barda 244 of Woodlawn, was purchased from Woodlawn Farms in Illinois. She was 3rd in her class at the Denver National Stock Show. After we purchased her, the ultrasound data came back and she was the number one marbling BR Midland sired calf in the nation. She went on to produce many embryos. She had the highest selling flush and embryos at the Foundation Female Sale in Denver in 2007.

Not only did she have extreme carcass numbers, but a superb docility score as well. She had many excellent females and numerous lead off bulls for our production sales. She went on to produce over 70 progeny in her lifetime.

In 2007 we bought the top bred heifer from the 2007 Baldrige Brothers Dispersal in Nebraska. Baldrige Blackbird S944. She went on to produce numerous top selling bulls and females for our program.

In 2008 we started entering bulls in the Midland Bull Test. We had the number one marbling bull, which then sold to Craig Kroskob in Colorado. A couple of years later we had the number two bull overall at Midland Bull Test from a donor from the Edwards Ranch in Montana.

Another donor cow that has had a huge impact on our herd is NER Everelda Entense 5203 you will notice this cow family extensively as you look through the catalog. What's most interesting about this female is that she ratios 118 on IMF on 15 calves and she ratios 108 on Ribeye on 15 calves. If you want muscle and marbling this cow family has it like no other. Her progeny will garnish 100% prime every time.

In 2012 we started marketing all of our fat cattle through a natural program, Niman Ranch, in California. This has turned out to be a good program for us as we currently are marketing cattle that run 100% CAB and 60-90% Prime.

Currently, our top two donors are from Gardiner Angus in Kansas. The oldest one is GAR Ashland N299. She had been flushed once before by the Gardiners before we purchased her and she produced two bulls that were Lot 2 and 4 in their recent sale and sold for 17,000 each. We are selling embryo calves out of this top donor.

**Don't overlook 2 of our herd sires selling, and cataloged as Ref. Sire M ( page 5 ) and Lot 24 ( page 14 )**

Any questions don't hesitate to call me or Jeff or Simon. We love to talk cattle.

Thank you.  
Frank Brand
